**A PERFECT  
SOLUTION FOR  
CUTTING AND MILLING**

# SUPERCUTTER

It is a flat cutting table capable of cutting a wide range of materials such as paper, vinyl, corrugated cardboard, foamed PVC, foam, honeycomb, synthetic leather or acrylic, dibond and wood with the optional milling tool.

All this with great precision and speed, making it the ideal solution for the production of displays, packaging, labels, stickers and signage.

## CHARACTERISTICS

 Multifunction printhead

 Conveyor

 250x160cm (Optional 300x200)

 Reel holder

 9,5KW

 Up to 50mm

 300-1600 mm/s

The SuperCutter is a 250x160cm cutting table equipped with two tool slots and a CCD camera for the recognition of opposites. The multifunctional head allows to interchange the different tools to cut different materials. It can cut at a speed between 300 and 1600 mm/s depending on the material, which can be up to 50mm thick.

# SPECIFICATIONS

Cutting area	2500x1600mm
Multifunction printhead	Oscillating blade, milling, CCD, plotter, etc
Cutting speed	300-1600 mm/s depending on the material
Cutting thickness	Up to 50 mm depending on the material
Absorption method	Vacuum system
Feeding way	Conveyor
Precision	0,01mm
Interface	Ethernet Port
Control Panel	7 inch color touch screen
Driving system	Servomotor
Pump power	7,5KW
Total fixed power	9,5KW
Working environment	Tem : 0°C ~ 35°C Humidity : 35% ~ 80
Measures	3890x130mm
