YOUR PACKAGING**

AQUA SINGLE PASS

This printer range is the ideal solution ideal for packaging personalisation. It can be printed on any type of material of paper, wood and cardboard thanks to the water-based inks respectful with the environment.

The Aqua Single Pass can be considered a digital flexography that allows making short runs without worrying about the quantity of colours and at a very economical cost.

CHARACTERISTICS

Paper

Cartonboard

Wood

Water-based inks

Single Pass HP Page Wide

40m linear

8cm thickness

1200x1200 dpi

RIP Imprimo

imprimo
Super

The water-based odourless inks waterproof and UV resistant at low cost are the most innovative features of the Aqua Single Pass. His motorised siding printhead allows print positioning on pre-cut containers.

Also, the printers are equipped with RIP Imprimo, a professional software developed by us to ensure colour accuracy and ease of imposition.
