AQUA SINGLE PASS 30

WATER-BASED TECHNOLOGY

The Imprimo **Aqua Single Pass 30** is the ideal solution for packaging personalization.

This machine is capable of printing on **all types of porous materials** at a speed of **40 linear meters per minute**, with **high quality printing** results at low cost.

Among its most innovative features is its environmentally responsible **water-based technology** that includes 1 printhead and a resolution of **1200 dpi**.

| | |
|-------------------------------------|---|
| MAXIMUM PRINTING AREA | 30 cm |
| PRINTHEAD | 1 piece |
| COLORS | CMYK |
| INK | Water-based (die and pigmented) |
| HEAD CONTROL | Thermal injection head |
| TECHNOLOGY | Thermal printing |
| SOFTWARE | RIP IMPRIMO (Ready to print) |
| VACUUM TABLE | 1 zone |
| PRINT SPEED* | 5/15/50 meters per minute |
| PRINT HEIGHT | 12 cm (with possibility to configure it) |
| RESOLUTION | 1200*300 DPI 1200*600 DPI 1200*1200 DPI |
| VOLTAGE | 220v 50/60Hz - Single Phase |
| RECOMMENDED WORK ENVIRONMENT | 20°C to 28°C with 40% to 60% humidity |
| APPROXIMATE WEIGHT | 600 kg |
| PRINTER SIZE | 2,15 m × 1,15 m × 1,5 m |
| INK DURABILITY | Depending on the model of ink and its storage |

*La velocidad puede variar dependiendo del gradp de edcolón
